

Building Your Installation Tool Kit

The following is a list of tools that you will need for smoke detector installations:

- Goggles or protective glasses
- Flat-head & Phillips-head screwdrivers
- Drill (with small drill bit for pilot hole)
- Step ladder
- Vacuum
- Assortment of screws with anchors
- Box cutter
- Assortment of Sharpie Markers (fine tip and regular) or other permanent markers
- Multi-tool (Leatherman type tool)
- Smoke detector installation guidelines

In addition to these items, you should also bring the following:

- Smoke Detector Installation Forms
(Go to <http://www.dps.state.ia.us/fm/index.shtml> and click on the Smoke Detector Project link for the forms and other resources)
- Home Fire Safety Messages
(Go to <http://www.dps.state.ia.us/fm/index.shtml> and click on the Smoke Detector Project link for the forms and other resources)
- Local fire department contact information
